

Protect the apple of your eye with

# Fingerprint Pre-Registration

It is not an option, but a **must**

## What is Fingerprint Pre-Registration System?

It is a system that allows you to register fingerprints and photos of children and contact details of the guardians in case they go missing and use the registered information to quickly hand them over to the guardians.

## Registration Subject

- ✓ Children under 18
- ✓ Intellectually disabled, autistic, and mentally disabled persons
- ✓ People with dementia

경찰청  
KOREAN NATIONAL POLICE AGENCY

## How to register

You can register in one of the following ways

Download the **Mobile Safety Dream App** to register.

✔ You can use the service after verifying your identity with your mobile phone number.

Please scan the QR code on the front for information on the detailed registration process.

**Visit** your nearest **patrol unit** or **precinct station** to register.

✔ Proof of family relationship or passport/foreigner registration card (for both guardians and the child) is required to verify the child.

Register on **Safety Dream website** ([www.safe182.go.kr](http://www.safe182.go.kr)).

✔ Since only photo registration is available on the website, please use the Safety Dream app or visit the nearest patrol unit or precinct station to register the fingerprints.

## Handling of Pre-Registered Sensitive Information

Pre-registered materials are automatically destroyed when the child reaches the age of 18(except for people with intellectual disabilities, autism, mental disabilities, and dementia),  
or **immediately if the guardian requests destruction.**
